

ABSTRACT OF THE DISCLOSURE

A "Sky Charger Node" or "Node" that contains programmed instructions and/or "intelligence" for monitoring communication traffic on a communications network such that appropriate reactions to commands received over the communications network occurs. The "Nodes" also broadcast commands and status information to the network for the purpose of being monitored and/or responded to by other "Nodes" on the network. The "Nodes" provide a way to monitor, control, provide information to or from, or react to, information provided by way of "Sky Charger" network(s).
